- Can be used to brew tea

Recommended products...

Cafeology Fairtrade Ground Coffee

Technical information...

A small portable brewer for filter coffee that produces coffee into glass flasks. Available as un-plumbed only and requires a 13-amp electrical supply, the flask however comes as standard!

Pause rating...

The Bravilor Mondo is a traditional filter brewer that needs a constant supply of electricity to keep coffee hot. Its filters and grounds are compostible. All in all the Bravilor Mondo is doing rather well, therefore it receives a reasonably environmental pause rating of 2. It really is good... so it will raise plenty of smiles.
