

# We'd like to introduce the...

## Bravilor Therm

**What's it like** a coffee delivery concept widely used because of the portability of the flasks. The coffee can be brewed at a central point and distributed safely throughout a building.

### Key features...

- Available as plumbed only
- Airpots with each machine
- Coffee quality is maintained for longer
- Brews one flask in 7 minutes
- Brews up to 20 litres in an hour
- Coffee brewed at a central point

### Key benefits...

- Consistent quality to the last cup
- Easy to use
- Well known/popular concept
- Reliable equipment
- Can be used to brew tea
- Brewer/flasks can be moved easily
- Coffee/tea will remain hot for approx. 4hrs

### Recommended products...

Cafeology Fairtrade Ground Coffee

### Technical information...

A small portable brewer for filter coffee that produces coffee into the Bravilor Airpot (vacuum flask). Available as un-plumbed only, 13-amp electrical supply is required.

### Pause rating...

The Bravilor Therm uses electricity only when brewing coffee. The coffee is kept hot in thermos flasks. Its waste products (filters and grounds) are compostible. All in all the Bravilor Therm is rather splendid, so it receives an environmentally friendly pause rating of 3. It really is special... so it's smiles all round.
