

# Give a warm welcome to the...

## Kenco Connection

**What's it like** this is an ideal piece of equipment to be used where branded products are called for. It should be installed in light usage sites of between 25 and 50 people so it's not one for wild parties.

### Key features...

- Kenco branded decals
- 6 drink options
- Internal sugar dispenser
- Guaranteed consistent quality
- Minimal cleaning required
- Space efficient design
- Multiple payment options

### Key benefits...

- Minimum maintenance needed
- Good visual impact
- Comprehensive product range
- Excellent portion control
- Easy to maintain
- No plumbing required
- Simple to operate

### Recommended products...

Range of Kenco/PG/Suchard In-cup drinks

### Technical information...

The Connection is an in-cup machine that is known for reliability and efficiency. It is available as plumbed or manual fill and requires a 13-amp electrical supply. It has a cup capacity of 275 – 330 so you needn't worry about running out in a hurry.

### Pause perspective rating...

The Kenco Connection is manufactured from recyclable materials. The only waste products are its paper cups, which can be re-cycled. All in all the Kenco Connection is doing rather well; therefore it receives a reasonably environmental pause perspective rating of 2. It really is good... so it will raise plenty of smiles.
