- 156 cups per hour

Key benefits...

- Small footprint
- Attractive design
- Half/full brew feature
- Easy to operate
- Cup warmer/storage

Recommended products...

Cafeology Fairtrade bulk brew filter coffee

Technical information...

A bulk brewer for larger quantities of filter coffee with the addition of hot water. It requires a 15ml BSP water supply and 13 amp electrical supply, but other than that it's plain sailing.

Pause perspective rating...

The Marco Qwikbrew has a hot water facility that maintains the temperature of the coffee. Its filters and grounds are compostable. All in all the Marco Qwikbrew is doing rather well, therefore it receives a reasonably environmental pause perspective rating of 2. It really is good... so it will raise plenty of smiles.
