

Now then, say hiya to the...

Marco Filtro Shuttle

What's it like a coffee delivery concept widely used in offices, training rooms, and conference areas. Because of the portability of the flasks, the coffee can be brewed at a central point and distributed safely throughout a building. It's portable perfection in a jug.

Key features...

- Removable urn
- 6 litre brew facility
- Half brew option
- Fully insulated urn

Key benefits...

- Consistent quality to last cup
- Easy to use
- Coffee will remain hot for 3 hours
- Reliable equipment
- Shuttle flasks can be moved easily
- Small footprint

Recommended products...

Cafeology Fairtrade filter coffee plus cups, sugars, stirrers and lovely biscuits, yum.

Technical information...

A brewer for filter coffee that brews its beverage into a removable urn that's easily transportable. Available as un-plumbed only and requires a 13-amp electrical supply. Lovely jug!

Pause rating...

The Marco Filtro Shuttle uses electrical energy only to brew coffee. Its coffee is kept hot in thermos flasks and all its filters and grounds are compostible. All in all the Marco Filtro Shuttle is doing rather well, therefore it receives a reasonably environmental pause rating of 2. It really is good... so it will raise plenty of smiles.
