- Drinking water always available
- No storage problems
- Water guaranteed to be within EU guidelines
- Guaranteed purity of water
- Guaranteed free from harmful bacteria
- Can be sited up to 30m from water supply

## Recommended products...

Some of our clear plastic cups that can be recycled!

## Technical information...

A mains fed, chilled water dispenser that incorporates a cup dispenser in the base cabinet, also available without base cabinet. A 15ml BSP water supply and 13-amp electrical supply is required... for complete chilled perfection.

## Pause rating...

The Waterlogic 3000 reduces environmental impact by not transporting water bottles. It has a sleep mode to conserve electricity and is manufactured from recyclable materials. Waterlogic 3000 is rather splendid, so it receives an environmentally friendly pause rating of 3. It really is special... so it's smiles all round.
